

DOG PARK COMING SOON TO ANDERSON FARM PARK

Dane County Parks is developing a 40-acre dog park and paved shared-use trail which is anticipated to be completed and opened in 2021. The dog park will include perimeter fencing for separate off-leash areas for large and small dogs, parking, an electric vehicle charging station, stormwater basins, restrooms, and 35 acres of prairie and trails. The paved shared-use trail will connect the new dog park with the Arthur Sholts Memorial Woods and South Main Street. More info at: www.danecountyparks.com/andersondogpark
